The columns 3-5 (50+, 20+, 10+) show how many percent of the book's words a student should be able to understand depending on how much NT vocabulary he learned. It is clear that the more words the student masters the more one will be able to translate. Improving one's vocabulary to 10+ occurrences is the standard and allows to read at least half of the NT books comfortably.

The last two columns deal with rare NT words. The "9-1 words" column shows how many words in these frequencies appear in a given book. The last column shows an average number of these words per chapter.

TABLE 2: The reading levels
